

# Guilherme Nimer Gojlevicius

Senior Software Engineer

📍 São Paulo, Brazil    ✉ gojnimer@gmail.com    ☎ (11) 94865-9453    🔗 gojnimer

## Experience

---

**Senior Software Engineer**, Hospital Israelita Albert Einstein Aug 2021 – present

- Implemented dynamic medical forms framework, consolidating multiple legacy projects into a single configurable platform
- Standardized and modernized Micro Frontends (MFE) architecture, improving scalability and maintainability of internal systems
- Developed and maintained design system in React, ensuring visual consistency and component reusability across the platform
- Integrated electronic health record services and medical systems, ensuring real-time data exchange

**Senior Software Engineer**, Bradesco June 2020 – Aug 2021

- Led the Notifications area of the main mobile app, developing critical communication features for millions of users
- Utilized Angular and React Native in MFE architecture, ensuring precision and agility in transactional notifications and fraud alerts
- Developed authorization and notification configuration system, improving usability and user control

**Frontend Developer**, Foursys – São Paulo, Brazil Feb 2020 – June 2020

- Development of web applications with React and TypeScript for corporate clients
- Participation in legacy interface modernization projects

**Mobile Developer**, Fullware Tecnologia De Sistemas June 2018 – Feb 2020

- Development of mobile and web applications using C#, .NET Core, and Xamarin Forms
- Implementation of CRM systems that optimized sales and customer service processes

## Education

---

**FIAP**, Bachelor's Degree in Information Systems 2020 – 2025

## Skills

---

**Core Competencies:** JavaScript, TypeScript, React.js, Node.js, Full-Stack Development

**Frontend Frameworks:** React, Next.js, Remix, Astro, Angular

**Architecture & Infrastructure:** Kubernetes, Docker, CI/CD

**Backend:** Node.js, C#, .NET Core, BaaS, Event-Driven Architecture

**AI & Methodologies:** Agentic Development, Prompt Engineering, TDD, Spec-Oriented Development

**Mobile:** React Native, Xamarin Forms

## Languages

---

**Portuguese:** Native

**English:** Advanced
